

At this moment in time I believe that Sandy Hook was an event induced by small (maybe insignificant) contributions of all of us over a long time. This finding does not make me feel any better but this event forced me to dig deeper and conquer my fear to address the issue at this public level. I also believe, that the solution is not simple and surely it is not fast, but I truly believe we can do it. I think we can start building a better world for our children and the children of their children until the end of time.
